

Junhyeok Park

Seoul, South Korea

eppi001004@gmail.com github.com/JakeFRCSE jakefrase.github.io

Research Interests

- Mechanistic Interpretability of Large Language Models
- Natural Language Explanations of LLM Activations
- Causal Intervention and Representation Analysis

Education

Pusan National University, Busan, South Korea Mar 2020 – Feb 2026
B.S. in Computer Science — B.A. in French Language and Literature
GPA: 4.32/4.5 — Summa Cum Laude

Research Experience

Research Intern, MLAI Lab, Yonsei University Jun 2026 – Present
Prof. Kyungwoo Song

- Investigating the faithfulness of natural language autoencoders.

Undergraduate Researcher, Data Intelligence Lab, Pusan National University Sep 2025 – Feb 2026
Prof. Junsu Cho

- Contributed to experimental design and execution for emotional support conversation (ESC).
- Second author on a paper accepted to EMNLP Findings 2026. [[paper](#)]

Research Intern, SAILAB, KAIST Jun 2025 – Aug 2025
Prof. Jaesik Choi — Mentored by Cheongwon Kang — [[report](#)], [[code](#)]

- Analyzed response inconsistency in LLMs under prompt-format perturbations in multiple-choice QA.
- Linked output inconsistency to internal dynamics using the logit lens.

Selected Independent Research Projects

Mechanistic Interpretability Mar 2026 – May 2026

- **Zero-shot inference failure modes** [[blog](#)], [[code](#)]
 - Designed and conducted experiments in a zero-shot inference setting.
 - Verified the instability of the zero-shot inference setting due to prompt biases.
- **Geometry of Truth reproduction** [[blog](#)], [[code](#)]
 - Reimplemented PCA and causal probing (NIE) pipeline from the paper (Marks & Tegmark, 2023) without reference to existing code.
 - Verified scale-dependent emergence of linear structure and observed weak intervention effects in small models.

Awards & Honors

Academic Excellence Scholarship, Pusan National University 2020 – 2025
Gochon Scholarship, Gochon Foundation Aug 2025
Outstanding Effort & Attitude Award, Toronto Metropolitan University Jul 2024

Languages

English (TOEFL iBT 98)
French (DELFB2)
